## RQ-2Ki High Purity Quartz

**RQ-2Ki** is manufactured from unique Quartz deposit in Kyshtym, Russia.

Kyshtym quartz has the highest chemical purity and good transparency, and for more than 60 years been successfully used as raw material for quartz tubes of various diameter, ingots and crucibles for photovoltaic and semi-conductor industries.

**RQ-2Ki** is particularly suited for use in the transparent layer of crucibles for photovoltaic and semiconductor industries, production of large diameter quartz tubes, quartz ingots.
